II.1.4) Short description

B2G MWX will supersede and unify B2G's MW20 (national) and MW21 (regional) minor works frameworks, both of which are due to expire during Q1 2024, and will incorporate features successfully introduced in later frameworks,

This framework will enable any UK contracting authority to procure one-off projects, programmes or term contracts to deliver both major or minor planned and/or responsive works in the construction, repair, maintenance and improvement of both housing and non-housing.

This framework will be suited to principal contractors with multi-discipline capability, who operate both nationally and/or regionally, given that it will operate as a single UK lot, within which contractors have the option to designate 'active regions' and specialist 'work types'.

Specialist contractors may also prefer to register for the B2G DPS, which operates in tandem with all B2G frameworks. However, whether framework or DPS, we set the bar high, and only appoint suppliers who are competent and competitive.

Bid teams please note:

The framework value is £200m PER ANNUM. nb. B2G frameworks operate on a 12 month auto-renewable basis (see note IV.1.3 within this notice) to maximise value of participation whilst minimising impact on bid team resource.

And since the best suppliers usually have the busiest bid teams, our bid docs are designed to minimise bid team workload, with a focus on 'evidence not essays' and a simplified pricing format in sync with the UK gov's Should Cost Model.
