Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Mobile Voice and Data Services

Reference number

RM6261

II.1.2) Main CPV code

- 64000000 - Postal and telecommunications services

II.1.3) Type of contract

Services

II.1.4) Short description

Crown Commercial Service (CCS) as the Authority has put in place an agreement for the provision of mobile voice and data services (including hardware) and ancillary services (Telecommunications Audit & Health Check and Professional Services) in support of the mobile voice and data services to be utilised by or on behalf of the UK public sector and their associated bodies and agencies, the voluntary sector, charities and or other private organisations acting as managing agents or procuring on behalf of the public sector delivering services of a public nature. This commercial agreement will be the recommended vehicle for all mobile voice and data requirements.

The policy drivers supporting the development and procurement of this Framework Agreement are to provide buyers with a route to market compliant with UK Law, achieving best value through leveraging public sector spend, improve the buying of mobile voice and data services in the UK public sector and to provide buyers with access to high quality mobile voice and data services.

- 3) Approved Customer list
- 4) Transparency Agenda

On 02/04/2014, Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at:

<https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.
