Reference number

PD-847-22-TH-FRAM

II.1.2) Main CPV code

- 30200000 - Computer equipment and supplies

II.1.3) Type of contract

Supplies

II.1.4) Short description

Coventry University Group is modernising the way we manage our end user device delivery. Our existing device selection methods involve complex processes, from deployment, logistics, asset management and lifecycle. These are all coupled with the changing needs of the user and the rotation, servicing, and reassignment to staff especially when people leave. In many cases, the device profile needs to change to match people needs (personas).

Coventry University Group are new to the device as a service (DaaS) model, but the market is very mature in a commercial space and has been for well over a decade. It is therefore our intention to utilise this model to remove the administrative burden of device management so that we can maximise our service area resource to focus on other innovation tasks. We want our employees to use the latest device technology to be their best, be secure and ultimately improve the perception and experience of accessing and using Digital Services.

The awarded contract will for 4+1 years and will also require the supply of all IT Related Consumables and Accessories for Coventry University and Integration for the awarded supplier with the One Advanced Marketplace.

Please note that access to procurement documentation and submission details can be located at <https://in-tendhost.co.uk/coventryuniversity/>
