Market Engagement for Thames Water Strategic Resource Options - Teddington Direct River Abstraction (DRA) Project

THAMES WATER UTILITIES LIMITED

F04: Periodic indicative notice – utilities

Periodic indicative notice only

Notice identifier: 2023/S 000-036442

Procurement identifier (OCID): ocds-h6vhtk-042364

Published 11 December 2023, 6:18pm

Section I: Contracting entity

I.1) Name and addresses

THAMES WATER UTILITIES LIMITED

Reading

RG1 8DB

Email

SRO.SupplyChain@thameswater.co.uk

Country

United Kingdom

Region code

UKJ11 - Berkshire

Companies House

02366661

Internet address(es)

Main address

<https://thameswater.co.uk>

I.3) Communication

Additional information can be obtained from the above-mentioned address

I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Market Engagement for Thames Water Strategic Resource Options - Teddington Direct River Abstraction (DRA) Project

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

This Periodic Indicative Notice (PIN) relates to a planned market engagement event that Thames Water Utilities Limited (TWUL) will host for suppliers at One New Change, London on Wednesday 24th January 2024 @ 10:30am.

The event will introduce the proposed Teddington Direct River Abstraction (DRA) Project and current proposed thinking on the procurement and contracting strategy. Following the event, suppliers will be invited to take part in a market sounding exercise to provide

feedback on our approach and express their interest in the project. The market sounding pack, including a briefing document and questionnaire, will be made available to all interested parties.

Please follow this link - <https://forms.office.com/e/WshK7AFE2X>, to register your interest in attending the event.

Additional information about the project can be found in subsequent sections of this PIN.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 45240000 - Construction work for water projects
- 71000000 - Architectural, construction, engineering and inspection services
- 90700000 - Environmental services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

This is not procurement, but is related to a market engagement exercise.

II.3) Estimated date of publication of contract notice

1 September 2024

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.3) Additional information

The proposed Teddington DRA Project is one of the Strategic Resource Options (SRO) that sit within Thames Water's (TWUL) draft Water Resources Management Plan 2024 (WRMP24), which was published for public consultation in December 2022. TWUL published its response to the public consultation in August 2023. Its aims are to protect against the growing risk of drought and water shortages, and to improve the environment.

The project will involve transferring water abstracted from the River Thames via an existing underground tunnel to the Lee Valley reservoirs in East London. To protect the environment and wildlife, tertiary treated recycled water from Mogden Sewage Treatment Works (STW) will be transferred via a new pipeline and outfall structure into the river to replace the abstracted water. As a drought resilience scheme, this will provide up to 75 million litres of water per day during periods of prolonged dry weather.

The project is currently within its design and development phase. However, the proposed works include approximately 5km of tunnelling (internal dia 1.8m) and shafts (internal dia 10.5m w/ depths ranging 20-30m), construction of a discharge outfall and associated treatment works at Mogden STW.

The project also forms part of the Ofwat PR19 strategic water resource solutions allocation for companies to investigate and develop integrated strategic regional water resource solutions. These schemes need to be ready for construction for the 2025-2030 period, must protect and enhance the environment, and benefit wider society. Whilst the final decision on what options will be developed has not been made, TWUL is taking prudent steps to be ready to progress projects to the required timetable.

This preliminary market engagement exercise will help to inform the development of the procurement and contracting strategy for the project.

Market Engagement Event - Registration:

The Market Engagement Event will take place in London (One New Change, EC4M 9AF) on the morning of Wednesday 24th January 2024. Please mark this date in your calendars.

Suppliers are encouraged to register for the event, using this link <https://forms.office.com/e/WshK7AFE2X>, where there is provision to nominate your representatives.

At this stage, due to space constraints, we expect to extend invitations to no more than two representatives for each company. Should further places become available, we will inform all companies that have registered.

Further details of the venue and timings will be confirmed, and official calendar invitations will be sent out once registration has closed.

We will share copies of presentations and a written summary of the Q&A available after the event on request. Any organisation wishing to contact us can do so by emailing SRO.SupplyChain@thameswater.co.uk

Disclaimer:

This PIN is not a call for competition and is not published to reduce time limits for the receipt of tenders. Any dates and/or durations in this PIN and in the subsequent presentations, briefing packs and surveys are indicative only. Non-participation in the market engagement exercise shall not prevent any supplier from participating in any future procurement. Publication of this PIN is part of the TWUL's due diligence process on its options, and the publication of this PIN does not indicate that a decision has been made on a particular route for a procurement and/or subsequent contract award. TWUL is not obliged to communicate with any parties/economic operators that complete the registration forms, partake in its market engagements or subsequent surveys. TWUL is not obliged to respond to any correspondence on this PIN or any matter related to this market engagement. The decision to include any party/economic operator in any subsequent market engagement process shall remain with TWUL alone.
