Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Provision of Road Asset Management System

Reference number

DN763312

II.1.2) Main CPV code

- 71300000 - Engineering services

II.1.3) Type of contract

Services

II.1.4) Short description

Versatile web based data management system that is capable of handling asset information, not limited to highways asset information. This is referred to in these documents as the 'Road Asset Management System' (RAMS). The RAMS will be used to visualise the condition, location and history of a range of asset types, in context with other spatial data.

The scope of work is in two parts;

- Part 1 – Data Collection - In order to provide suitable data to allow the effective modelling as covered in Part Two below the Tenderer shall undertake a physical survey of the highways and footways network.
- Part 2 - Deterioration and Lifecycle Modelling - In order to understand the medium to long term deterioration of the highways network, and then model the implications of any given investment/maintenance regime, the Tenderer shall make available online deterioration and investment modelling software as a service, using the SaaS (Software as a Service) principle.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £12,000,000
