Contract

## **Framework Agreement for the Provision of Wastewater Network Modelling Services**

Wessex Water Services Limited

F06: Contract award notice – utilities

Notice identifier: 2022/S 000-036468

Procurement identifier (OCID): ocids-h6vhtk-028ecb

Published 23 December 2022, 8:34am

### **Section I: Contracting entity**

#### **I.1) Name and addresses**

Wessex Water Services Limited

Claverton Down Road

Bath

BA2 7WW

#### **Email**

[eprocurement@wessexwater.co.uk](mailto:eprocurement@wessexwater.co.uk)

#### **Country**

United Kingdom

#### **Region code**

UKK - South West (England)

#### **Internet address(es)**

Main address

[www.wessexwater.co.uk](http://www.wessexwater.co.uk)

## **I.6) Main activity**

Water

---

## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Framework Agreement for the Provision of Wastewater Network Modelling Services

Reference number

PROF130-2022

#### **II.1.2) Main CPV code**

- 71335000 - Engineering studies

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

The provision of wastewater network modelling services consisting of Lot 1 – 1D and 2D modelling activities and Lot 2 – Development of smart working tools and automation of processes. The services are to support Wessex Water's inhouse network modelling team.

#### **II.1.6) Information about lots**

This contract is divided into lots: Yes

### **II.2) Description**

#### **II.2.1) Title**

Lot 1 – 1D and 2D modelling activities

Lot No

1

### **II.2.2) Additional CPV code(s)**

- 71621000 - Technical analysis or consultancy services

### **II.2.3) Place of performance**

NUTS codes

- UKK - South West (England)

### **II.2.4) Description of the procurement**

Lot 1 – 1D and 2D modelling activities. The tasks involved for each modelled area could include, but is not limited to:

- Importing/entering data on the wastewater network (including sewers, pumping stations, other sewerage assets and treatment works within the study area in accordance with the Project Brief) into INFOWORKS ICM.
- Importing/entering data necessary for 2D model functionality.
- Identifying required surveys of WW assets (SPSs, CSOs, Bifurcations and other key manholes) as deemed necessary. Reception and indexing of survey results.
- Undertaking wastewater network data validation, interpolation, clean up and area take off assessments.
- Designing and planning of sewer flow surveys for the purposes of gaining sufficient data to accurately verify system operation and verify each model (flow surveys will be procured separately by the Company).
- Identifying and requesting required data for telemetry verification, including radar rainfall and download of telemetry signals.
- Attendance at site pre-installation visits and checking of data returned by flow survey contractor;
- Use of data gained in the flow survey and/or data from other sources, in particular performance data from the Company's telemetry system, to verify the model for dry weather and storm periods as per UDG Code of Practice criteria; note - telemetry data will be used to augment conventional flow monitors- smaller models may be verified using

only telemetry data and telemetry data may be used for longer term verification).

- Following verification to the required standard, producing working models to represent present day and future scenarios.
- Maintenance and updating of existing models including: adding new development; targeted reverification; updates from recent surveys.
- Producing documentation at various stages of the project as required
- Effectively liaising with relevant Wessex Water personnel including the project manager at all stages of the project (liaison meetings may be held at Wessex Water offices or remotely).
- Performing DWMP routines including undertaking BRAVAs (Baseline Risk And Vulnerability Assessment), ODAs (Option Development and Appraisal) and adaptive pathways.
- Undertaking various studies such as, but not limited to, optioneering, SuDS strategies, Developer Impact Assessment (DIAs), asset performance appraisals.
- River quality modelling (generally of intermittent discharges to SOAF type 1 or 2 specification)

#### **II.2.11) Information about options**

Options: No

#### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

### **II.2) Description**

#### **II.2.1) Title**

Lot 2 – Development of smart working tools and automation of processes.

Lot No

2

#### **II.2.2) Additional CPV code(s)**

- 71621000 - Technical analysis or consultancy services

### **II.2.3) Place of performance**

NUTS codes

- UKK - South West (England)

### **II.2.4) Description of the procurement**

Lot 2 – Development of smart working tools and automation of processes, such as:

- Development of bespoke smart working tools
- Development of new processes
- Development of existing and new software to meet Wessex Water requirements
- Provision of training and support in how to use these tools and processes.
- Provision of tool use guidance documentation

### **II.2.11) Information about options**

Options: No

### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

#### **VI.4.3) Review procedure**

Precise information on deadline(s) for review procedures

Wessex Water Services Limited commenced standstill period at the point information on the award was communicated to tenderers. The notification provided full information on the award decision. The standstill period of a minimum of 10 calendar days, provided time for unsuccessful tenderers to challenge the decision before the contract is entered into.

The Utilities Contracts Regulations 2016 (SI 2016 No 274) provides for aggrieved parties who have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England) within 30 days of knowledge or constructive knowledge of a breach.
