Contract

Next Generation Telemetry System

Scottish Environment Protection Agency

F03: Contract award notice

Notice identifier: 2022/S 000-036551

Procurement identifier (OCID): ocds-h6vhtk-035b0e

Published 23 December 2022, 1:35pm

Section I: Contracting authority

I.1) Name and addresses

Scottish Environment Protection Agency

Strathallan House, Castle Business Park

Stirling

FK9 4TZ

Email

supplier.communications@sepa.org.uk

Telephone

+44 1786457700

Country

United Kingdom

NUTS code

UKM - Scotland

Internet address(es)

Main address

http://www.sepa.org.uk

Buyer's address

https://www.publiccontractsscotland.gov.uk/search/Search_AuthProfile.aspx?ID=AA11302

I.2) Information about joint procurement

The contract is awarded by a central purchasing body

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Environment

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Next Generation Telemetry System

II.1.2) Main CPV code

- 48000000 - Software package and information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

SEPA is responsible for ~700 monitoring stations equipped with a variety of sensors, data-loggers and telecommunication equipment, servicing observations across all environmental media.

The data collected on the loggers are automatically transmitted to a central archive database via a telemetry management system, from whence they are automatically processed and distributed to a range of reporting and operational end-uses.

SEPA requires this system to be replaced.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 48100000 - Industry specific software package

- 90711500 - Environmental monitoring other than for construction

- 71700000 - Monitoring and control services

- 32441000 - Telemetry equipment

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

II.2.4) Description of the procurement

SEPA is responsible for ~700 monitoring stations equipped with a variety of sensors, data-loggers and telecommunication equipment, servicing observations across all environmental media.

Various data-loggers are in use, supporting multiple transducer channels and protocols, including industry-standard analogue and digital communications. Very few stations enjoy mains electricity connections, so most are battery-powered, typically supported by solar PV arrays.

The data collected on the loggers are automatically transmitted to a central archive database via a telemetry management system, from whence they are automatically processed and distributed to a range of reporting and operational end-uses.

The existing system is in transition from 'pull' to 'push' data transmission to the central archive and, as such, includes a mixture of wired and radio telephony, and wireless digital communications.

SEPA require this system to be replaced.

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 70

Price - Weighting: 30

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: 2022/S 000-022178

Section V. Award of contract

Contract No

N/a

A contract/lot is awarded: No

V.1) Information on non-award

The contract/lot is not awarded

Other reasons (discontinuation of procedure)

Section VI. Complementary information

VI.3) Additional information

(SC Ref:717997)

VI.4) Procedures for review

VI.4.1) Review body

Court of Session

Parliament Square

Edinburgh

Country

United Kingdom
