- 48500000 - Communication and multimedia software package

II.2.3) Place of performance

NUTS codes

- UKD - North West (England)

II.2.4) Description of the procurement

LCC is investigating the software availability from a single provider/solution to deliver the

following strategic ambitions for its residents:

- Easy, seamless experience whether engaging by phone, face to face, social media, AI chat or via a range of resident facing applications and forms.
- Mobile friendly, easy access to advice, information, and support about our services at a time to suit our residents.
- Opportunities to feedback about their digital journey and the design of our resident facing services.
- An automated telephone payment system which allows users to make payments over the phone or online without needing to speak to an agent.
- Receive a consistently effective digital service without having to tell us more than once.
- Ability to capture nondigital interactions where residents have chosen to use nondigital routes.
- Real time access to updates about a service request
- Promotes an inclusive digital service.
- Accessibility is embedded into the fabric of our solution so that residents with additional needs can engage with us digitally.
- Seamless signposting to the wider local government community without having to understand the difference between county, district, or parish level services.
- Ability to communicate in a non-English first language.
- An effective, timely and empathic response to an enquiry or service request
- Assurance that information we hold is safe and secure

II.3) Estimated date of publication of contract notice

3 March 2025
