II.1.1) Title

GSCIP Datasets - Generalist Company and Supply Level Data & Risk Data

II.1.2) Main CPV code

- 72300000 - Data services

II.1.3) Type of contract

Services

II.1.4) Short description

The Department for Business and Trade (“DBT”) has a potential requirement for the provision of generalist company and supply level datasets & risk datasets.

The Secretary of State for DBT is the contracting authority responsible for meeting this anticipated requirement. DBT intends to publish the Contract Notice 12/12/2024.

The full specification shall be provided with the contract documents but it is expected to incorporate:

Lot 1: Generalist Company and Supply Level Data

The requirement for datasets that fulfil the mandatory criteria for one or more of the following:

- 1 – Trading relationships between businesses ('A' supplies 'B')
- 2 - Products produced by a business, or at a business facility ('A' sells 'steel' OR 'steel' is made at 'X')
- 3 - Locations of business activity ('A' has a factory at 'X')
- 4 - Transactions between facilities owned by businesses (Factory at 'X' owned by 'A' sends goods to Factory 'Y' owned by 'B' on 'Z' date)

Lot 2: Risk Data

The requirement for datasets that contain:

- 1 – Company-level risk information
- 2 – Country-level risk information

It is anticipated the contract shall be for a period of up to 36 months, including any available contract option(s). The requirement has an estimated total value of £7,000,000 (inc-VAT) and this value includes any available contract option(s).

Please email commercialbpo@businessandtrade.gov.uk to express your interest in the bid and indicate which lot(s) you would be bidding for.

II.1.5) Estimated total value

Value excluding VAT: £5,833,333

II.1.6) Information about lots

This contract is divided into lots: Yes

II.2) Description

II.2.1) Title

Lot No

1 & 2

II.2.2) Additional CPV code(s)

- 72300000 - Data services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

DBT leads a cross-government programme that combines both government (HMG), private sector and open-source datasets to build detailed global supply chain maps at commodity and company level using a third- party ring-fenced graph style database stored on DBT's own environment.

DBT intends to develop a multi-lot tender with each lot covering a dataset type. Additional dataset types are likely to be procured early in the new year.

The proposed structure will be:

- Lot 1: Generalist Company and Supply Level Data
- Lot 2: Risk Data

DBT will be seeking multiple providers across all the lots, including the potential for a single supplier to provide data for more than one lot. DBT's intention is for the estimated budget of £7,000,000 over 36 months to be allocated across the lots and the contracts, for clarity this figure shall not be available to a single provider and DBT is looking for a diversity of supply chain data from multiple suppliers. It is proposed that the contracts will begin in April 2025 and will be for a duration of up to 3 years.

II.2.14) Additional information

It is anticipated that the tender will be launched in December 2024 with contracts being awarded in February 2025 and commencing in April 2025.

This procurement is subject to internal governance, should the authority proceed to competition the full details of the requirement and ITT shall be published on Find a Tender Service and Contracts Finder with participation instructions.

II.3) Estimated date of publication of contract notice

12 December 2024

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
