Decision-Makers:

Greenwich Joint Commissioning Board (07.11.2024)

Relative Importance of the Key Criteria:

Quality & Innovation - 20.00%

Value - 20.00%

Integration, Collaboration & Service Sustainability - 20.00%

Social Value - 20.00%

Rationale for the Relative Importance of the Key Criteria:

A cross-functional team were involved in delivering this project. The Authority set out to receive responses from suitably qualified and experienced healthcare providers with the necessary capacity and capability (or a demonstrable ability to provide the necessary capacity and capability) to provide the range of services as set out in the Specification in a safe and effective manner.

The Selection Questionnaire (SQ) was based on the standard Cabinet Office document, with the ITT Questionnaire being comprised of a detailed scoring methodology, the weighting criteria was published within the ITT documentation in accordance with procurement regulations.

#### Rationale for Provider Selection:

The Exclusions and Basic Selection Criteria responses were evaluated first, any bidder who failed the Selection Questionnaire would not progress further in the procurement process and would be disqualified. All Providers passed the Selection Questionnaire and progressed in the procurement.

Based on the outcome of the evaluation, and in line with the criteria stipulated by the Authority within the documentation, it was recommended that the contract be awarded to the Provider(s) who exceeded the threshold score in each category.

#### Conflicts of Interest:

To safeguard against potential conflicts of interest influencing the procurement process and evaluations, all panel members signed conflict of interest declarations and non-disclosure agreements. Project members and evaluators were informed of their role and the importance of the confidential nature of this procurement. No material conflicts were declared.
