**II.1.4) Short description**

Crown Commercial Service (CCS) as the Authority has put in place an agreement for the provision of public cloud computing as a multi-Lot, multi-supplier framework agreement,

available for use by those potential Buyers listed in the Contract Notice. These are UK public sector bodies and future successor organisations, which includes (but is not limited to): Central Government Departments and their arm's length bodies and agencies; the wider public sector; and third sector e.g. public sector or third sector organisations in local government, health, education, police, fire and rescue, housing associations and charities.

Buyers will be able to fulfil their public cloud computing needs directly from core cloud service suppliers or choose to fulfil their requirements indirectly through resellers who will also make available additional value-adding ancillary services that support the customer's adoption, usage or optimisation of the core cloud services.

This framework agreement also makes available professional services that will provide Buyers with specific enabling work which is short-term in nature and leaves the Buyer in a more capable state than before.

- 4) Transparency Agenda

On 02/04/2014, Government introduced its Government Security

Classifications (GSC) scheme which replaced Government Protective

Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at: <https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.

For Lot 1,2,3 and 4. 39 suppliers were awarded a place as opposed to the 30 suppliers as was originally stated in the Contract Notice that was published on 30/06/2023.
