II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £78,800,000

II.2) Description

II.2.2) Additional CPV code(s)

- 72000000 - IT services: consulting, software development, Internet and support

II.2.3) Place of performance

NUTS codes

- UKI - London

II.2.4) Description of the procurement

The outsourced Application and Maintenance Support Services (AMS) will provide the following to Defra:

- Application Monitoring – collecting data from applications to measure their performance and availability. This data can then be used to proactively identify and resolve issues before they impact users. Issues can include situations where an application is not performing as designed or, in the worst case, there is an outage and it is not available to end users.
- Application Maintenance – as technology progresses and the needs of end users adapt over time, continuous updating and modifying of applications is required to ensure they are running to the best of their abilities. This constant re-evaluating process means that faults can be corrected, and performance continue to be improved.
- Application Support – specialist support that can be contacted by receiving escalations from the service desk when they are unable to resolve a user's problem. This includes fixing issues that vary in levels of priority (from P4 to P1), however always on a minor tactical scale as the focus is to enable the application to function (as opposed to large scale Application Development).

By outsourcing the provision of these services to a specialist external provider, Defra can allow its IT function to continue focussing on longer term, more strategic planning. Typically, leveraging AMS services enables an organisation to improve internal efficiency and increase user-satisfaction. This is because internal IT teams are not having to spend time fixing applications that are not working as the end user expects them to.

In Defra's case, there are also regulatory requirements that must be adhered to, which makes the ongoing support of multiple applications even more critical. As well as ensuring that applications do not stop working, the AMS supplier will work to reduce the impact from outages and release fixes if a critical incident occurs.

Performing these duties limits the impact to farmers, borders and trade as a number of Defra's application are integral to them carrying out their jobs. Solving critical issues is

also key as the alternative is working via sub-optimal methods or workarounds that can cost significantly more.

II.2.5) Award criteria

Quality criterion - Name: Capability/Solution / Weighting: 33

Quality criterion - Name: Implementation / Weighting: 15

Quality criterion - Name: Social Value (inc. Sustainability) / Weighting: 12

Price - Weighting: 40

II.2.11) Information about options

Options: Yes

Description of options

+1+1 extension options.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Competitive procedure with negotiation

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2022/S 000-034120](#)

Section V. Award of contract

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

14 October 2024

V.2.2) Information about tenders

Number of tenders received: 3

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor

Accenture (UK) Limited

1 Plantation Place, 30 Fenchurch Street, London EC3M 3BD, United Kingdom
