II.1.4) Short description

Port of Dover is seeking information from suppliers of Vessel Traffic Services (VTS) software and support services in advance of a procurement process anticipated to be held in early 2025.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

• 34931500 - Vessel traffic control equipment

II.2.3) Place of performance

NUTS codes

• UKJ44 - East Kent

II.2.4) Description of the procurement

Overview

· Our current Vessel Traffic Services (VTS) hardware and software was implemented in 2018.

· Port of Dover is embarking on an upgrade of the associated hardware. Our objective,

and the focus of this request for information, is to implement a replacement for our current VTS software at the same time.

Scope and key requirements

· Source an appropriate replacement VTS IALA compliant software solution.

· Implement the refresh and update of the VTS hardware, operating systems, and VTS software.

· The implemented system must meet requirements of the NIS2 Directive.

· Port of Dover intends to supply all hardware components.

· The scope does not include replacement of Radar, CCTV, AIS, VHF system, and Radar Sensors. However, these elements will need to be integrated with the implemented system.

Supplier Expectations

· Companies expressing an interest will be expected to have previous experience of such implementations and be able to evidence this through an upcoming PQQ.

· Interested suppliers are requested to email PODtender@portofdover.com referencing this PIN and providing the correct contact details (name, email, phone number) to facilitate pre-procurement engagement.

Next Steps

· The Port of Dover intends to issue a Request for Proposal for this business.

· It is not anticipated at this time that this procurement will be required to follow a regulated published procedure.

Timeline

We anticipate starting the procurement process early in 2025.

II.3) Estimated date of publication of contract notice

20 January 2025
