Other information

Description of risks to contract performance

AWE has identified a potential risk which, if it materialised, could jeopardise the satisfactory performance of the Contract following award, but which is currently unable to be definitively addressed for in the Contract: The interworking / migration of the existing medical records with the selected supplier's Occupational Health Management Software Solution (OHMSS). Given that we will not know the supplier until after we have conducted the tender it is not possible to quantify the precise level of risk.
