# **Section II: Object**

#### II.1) Scope of the procurement

#### II.1.1) Title

British Museum SWEC Main Works M&E Contractor

Reference number

BM.23.094

#### II.1.2) Main CPV code

• 45220000 - Engineering works and construction works

#### II.1.3) Type of contract

Works

#### II.1.4) Short description

The British Museum is undertaking a major development at its Bloomsbury Estate. The Energy Centre Programme is designed to improve energy supply and generation, rationalise primary services distribution, and provide improved resilience in the building services infrastructure that serves the Museum's main site. The programme is also a key enabler which will support ongoing asset and infrastructure renewal and the emerging aspirations of the British Museum's masterplan.

The M&E Contractor will undertake the role of Principal Contractor to provide all M&E services within the new South West Energy Centre, within the new East Road Building, within existing and new substations and all associated services infrastructure. The scope also includes elements of civils and builders work including trenching for new and relocated services and threading services through the existed listed building fabric.

#### II.1.5) Estimated total value

Value excluding VAT: £40,000,000

#### II.1.6) Information about lots

This contract is divided into lots: No

#### II.2) Description

#### II.2.2) Additional CPV code(s)

- 45311000 Electrical wiring and fitting work
- 45315000 Electrical installation work of heating and other electrical building-equipment
- 45331000 Heating, ventilation and air-conditioning installation work
- 45310000 Electrical installation work

#### II.2.3) Place of performance

**NUTS** codes

• UKI - London

Main site or place of performance

LONDON

#### II.2.4) Description of the procurement

The scope of these Works includes:

- 1. The installation of primary mechanical & electrical equipment within a new energy centre in the South-West corner of the Bloomsbury site, known as the South-West Energy Centre (SWEC) to house primary mechanical and electrical plant with additional accommodation for back-of house support functions. Note that the base build construction of the energy centre will be procured separately.
- 2. The installation of primary mechanical & electrical equipment within a secondary plant building in the North-East corner of the Bloomsbury site known as the East Road Building (ERB) to house High Voltage (HV) and Low Voltage (LV) substation B, associated LV distribution, emergency LV generation, primary sprinkler plant, and additional engineering support functions. Note that the base build construction of the energy centre will be procured separately.
- 3. The alteration of existing building services infrastructure and the installation of new building services to deliver the agreed services strategy across the estate. Inclusive of, but not limited to a Primary low temperature hot water (LTHW) plant rooms and distribution. b. Primary chilled water plant to the West and South-West of the Bloomsbury Estate. c. HV and LV substations and distribution. d. A new relocated intake substation (ISS) in the South-East

of the Bloomsbury Estate. e. LV emergency power generation and distribution to the Bloomsbury Estate. f. Primary sprinkler plant and water storage. g. Decommissioning and demolition of obsolete building services infrastructure.

#### II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

# II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

**Duration in months** 

40

This contract is subject to renewal

No

#### II.2.9) Information about the limits on the number of candidates to be invited
