## **MHC Block 2 Procurement of Uncrewed Underwater Vehicles (UUVs) - UK3**

Defence Equipment and Support

UK3: Planned procurement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-037104

Procurement identifier (OCID): ocds-h6vhtk-0502d1 ([view related notices](#))

Published 3 July 2025, 1:34pm

### **Scope**

### **Description**

Procurement of Uncrewed Underwater Vehicles, associated equipment and support.

### **Total value (estimated)**

- £125,000,000 excluding VAT
- £150,000,000 including VAT

Above the relevant threshold

## **Contract dates (estimated)**

- 29 June 2026 to 31 May 2029
- Possible extension to 31 May 2032
- 5 years, 11 months, 2 days

Description of possible extension:

Contract is anticipated to include 3 discrete option years for extension of in-service support provision.

## **Options**

The right to additional purchases while the contract is valid.

Proposed contract will include options both to extend ISS support and enable additional procurement of UUVs.

## **Main procurement category**

Goods

## **CPV classifications**

- 35512400 - Unmanned underwater vehicles

## **Contract locations**

- UK - United Kingdom

---

## **Submission**

### **Publication date of tender notice (estimated)**

16 October 2025

### **Submission type**

Tenders

### **Tender submission deadline**

5 March 2026, 12:00pm

### **Tenders may be submitted electronically**

Yes

### **Languages that may be used for submission**

English

### **Award decision date (estimated)**

12 June 2026

---

## Procedure

### Procedure type

Competitive flexible procedure

### Special regime

Defence and security

### Competitive flexible procedure description

The DE&S Mine Hunting Capability Team have recently conducted a Preliminary Market Engagement exercise around a planned procurement of Uncrewed Underwater Vehicles (UUV) and Launch and Recovery Systems (LARS) as part of its Block 2 programme.

The MHC Project Team are very grateful for the extensive industry input which is now being used to refine the draft tender pack.

The proposed timelines for the tendering process remain broadly as previously advertised, with an intent to award the contract in June 2026. The tendering process will include a Project Specific Questionnaire (PSQ) to assess suppliers' credentials and their ability to meet the core requirements. The PSQ will be published with the UK4 Tender Notice, which is planned for publication in October 2025; it is envisaged that the resultant Invitation To Tender will be published no earlier than January 2026.

As part of the tender evaluation process, tenderers will initially be evaluated against their compliance with proposed cost caps. The evaluation process will also include an in-water confidence assessment. The current intention, which is subject to change, is for the in-water confidence assessments to be delivered by each tenderer at a location of their choice (subject to Authority approval). For planning purposes, these in-water confidence assessments should be assumed to be no more than 2 days (with a third day held in reserve) and include an in-water demonstration of the proposed UUV, sensor and LARS. The in-water confidence assessment visits will also provide an opportunity for the Authority to ask initial

tender clarification questions (where possible these will be provided in advance).

The in-water confidence assessments will not take place before March 2026, and are likely to be in April and May 2026.

Final, detailed tender assessment and selection of a preferred bidder will be undertaken following completion of the last of the in-water confidence assessments.

Potential tenderers should note the critical importance the Authority places on effecting rapid maintenance and repairs of the UUV and LARS delivered under this requirement. Subsequently, the assessment criteria utilised within the PSQ and/or the Invitation To Tender will likely favour those suppliers who have a UK-based facility for delivering this aspect of the requirement.

Any follow up questions on this notice should in the first instance be directed to the MHC Commercial email address stated within this notice.
