- UKM - Scotland

Main site or place of performance

Scotland

II.2.4) Description of the procurement

The Purchaser required the provision of Quality Assurance and Audit (QAA) services under this Contract to support delivery of the Heat in Buildings new national scheme.

The purpose of this service is to give the Purchaser confidence that the services provided, and the installation of measures undertaken by the Managing Agent of the Heat in Buildings National Scheme, are compliant to the contract.

The new National Scheme, which is the successor to Warmer Homes Scotland concerns the installation of insulation, heating, and micro-generation measures in the homes of households, across Scotland, who met the eligibility criteria set out by the Purchaser, designed to target support at those in, or at risk of being in, fuel poverty.

The Scottish Government will have in place a contract with a single Managing Agent who is responsible for managing the end-to-end customer journey. This includes assessing the household's eligibility, identifying the Measures which are suitable for the dwelling through a PAS 2035 retrofit assessment process, carrying out a technical assessment, installing the measures, arranging a Post-Installation inspection, arranging billing of the Scottish Government (as Purchaser) and the customer, as appropriate, and following up with a service visit later.

Section VI. Complementary information

VI.3) Additional information

Question Scoring Methodology for Award Criteria is outlined in invitation to tender documents

Please note there are minimum requirements concerning Cyber Security for this contract.

Tenderers are also asked to confirm that they will pay staff that are involved in the delivery of services under the contract at least the real

living wage. Tenderers who do not pass these questions will not be subject to Commercial Analysis as a result the tender will not be

considered further.

Bidders must complete the SPD (Scotland) to demonstrate adherence to the Exclusion and Selection Criteria for this procurement.

If there are named subcontractors/technicians upon which the bidder will rely to meet the selection criteria, these named parties must

complete and reattach the SPD Supplier Response Form attached to SPD.

If bidders intend to use a supply chain to deliver the requirements detailed in the Contract Notice, they should confirm they have (or have

access to) the relevant supply chain management and tracking systems to ensure a resilient and sustainable supply chain. This will include

confirmation that they have the systems in place to pay subcontractors through the supply chain promptly and effectively, and provide

evidence when requested of:

a) their standard payment terms

b) ?95% of all supply chain invoices being paid on time (in accordance with the terms of contract) in the last financial year.

If the bidder is unable to confirm (b) they must provide an improvement plan, signed by their Director, which improves the payment

performance.

Bidders will be required to confirm that they will employ environmental management measures that meet the following requirements:

Bidders will be required to provide evidence that their organisation has taken steps to build their awareness of the climate change emergency and how they will respond. Accepted evidence includes but is not limited to:

a completed copy of the Bidder 'relevant contract' Climate Change Plan Template, including planned projects and actions to reduce the bidder's carbon emissions. This does not need to contain calculated carbon emissions.

The buyer is using PCS-Tender to conduct this ITT exercise. The Project code is 22681. For more information see:

<http://www.publiccontractsscotland.gov.uk/info/InfoCentre.aspx?ID=2343>

A sub-contract clause has been included in this contract. For more information see:

<http://www.publiccontractsscotland.gov.uk/info/InfoCentre.aspx?ID=2363>

As this is a demand led service The pricing submitted by the winning supplier will apply up to the maximum contract value of 3,500,000 GBP
