Tenders or requests to participate must be submitted to the above-mentioned address

I.6) Main activity

Other activity

IT Services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Overhead Line LiDAR scanning

Reference number

8842

II.1.2) Main CPV code

- 71353000 - Surface surveying services

II.1.3) Type of contract

Services

II.1.4) Short description

Scottish Hydro Electric Transmission Plc. (the "SHET"), seeks a market leading supplier(s) of overhead line LiDAR scanning. The solution will be delivered in PLS-CADD design file and ArcGIS file formats. SHET has identified 4887km of overhead lines in scope for this project, the detail of which will be supplied as shape files readable by GIS software packages. The solution is expected to be a framework for this project and potential future purchases.

The solution must provide LiDAR scanning of sufficient resolution to capture the overhead line including sag between transmission structures, the condition of transmission structures, the terrain and surrounding objects to a total width not less than 150m, centred on the overhead lines. Digital stills will be taken of transmission structures and incorporated into the solution such that they can be called from GIS for a particular location. Reference points must be used to accurately position the scanned overhead lines and transmission structures relative to the British National Grid.

Post processing must be completed to apply defined feature codes to classify objects and structures captured during scanning.

The provider(s) should provide timely high quality project delivery services and excellent post implementation customer support options. The provider should be able to obtain all licenses/certificates required to carry out the work and meet short delivery schedules.

To participate in the procedure the supplier should submit a pre-qualification questionnaire on the SHET's source-to-contract system Jaggaer.

II.1.5) Estimated total value

Value excluding VAT: £5,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

Scotland - Highland, North East, Tayside

II.2.4) Description of the procurement

TO ACCESS THE PROCUREMENT PLEASE CONTACT THE INDIVIDUAL LISTED ON THIS NOTICE OR IONA COOPER @ iona.cooper@sse.com

The full requirement is set out in the Procurement documents

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £5,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

60

This contract is subject to renewal

Yes

Description of renewals

The duration reflects the initial period of 36 months with extension options for further 24 month

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

The duration reflects the initial period of 36 months with extension options for further 24 month

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

Prospective suppliers should be able to commit that they have reasonable procedures in place for the prevention of modern slavery, human trafficking, financial crime and bribery

Other or additional conditions of participation may be set out in the final tender documents.

III.1.2) Economic and financial standing

List and brief description of selection criteria

Minimum turnover of £10,000,000 per annum.

The suppliers financial standing must provide reasonable confidence that they can fulfil the services.

Other and additional criteria maybe set out in the Procurement documents.

Minimum level(s) of standards possibly required

Minimum turnover of £10,000,000 per annum.

The suppliers financial standing must provide reasonable confidence that they can fulfil the services.

Other and additional criteria maybe set out in the Procurement documents.

III.1.3) Technical and professional ability

List and brief description of selection criteria

Prospective suppliers should be able to evidence strong knowledge and experience in the delivery of similar projects/capabilities

Additional requirements may be set out in the final tender documents.

Current expectation is for the initial project to start in June 2025 and complete by March 2026.

Therefore capacity might be a critical selection criteria.

Minimum level(s) of standards possibly required

As set out in the Procurement documentation

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure with prior call for competition

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with several operators

IV.1.8) Information about the Government Procurement Agreement (GPA)
