II.1.4) Short description

Crown Commercial Service (CCS), as the Authority, put in place a Pan Government Collaborative Agreement for the provision of Insurance services to be utilised by Central Government Departments and all other UK Public Sector Bodies, including Local Authorities, Health, Police, Fire and Rescue, Education and Devolved Administrations. It was intended that the commercial agreement would be the recommended vehicle for all insurance and related services required by UK Central Government Departments.

Bidders were able to bid on all of the Lots. However, successful bidders were only awarded to Lot 1 or Lot 3. Bidders indicated which of these Lots was their preferred choice in the Selection Questionnaire Attachment 2a. If the bids were successful, we used the selected preference to determine the award to either Lot 1 or Lot 3.

If a bidder was successful on their preferred Lot as referenced above due to being within 1% of the last position in the competition for that lot then their preferred choice in the Selection Questionnaire Attachment 2a will be the lot they are awarded.

Lot 1 – Brokerage and Related Services = 15 suppliers

Lot 2 – Claims Handling and Related Services = 4 suppliers

Lot 3 - Insurance Service Providers and Related Services = 3 suppliers

On 02/04/2014, Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement.

This link provides information on the GSC at:

[https://www.gov.uk/government/publications/government-security-](https://www.gov.uk/government/publications/government-security-classifications) classifications

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.
