Description

In April 2015, the MOD signed a thirteen year contract with Leidos Europe Ltd to provide the procurement and inventory management of commodity items (as well as the storage and distribution services), that were historically provided in-house by the Logistic Commodities and Services Operating Centre.

Leidos, working with the MOD, will transform the way these services are delivered to ensure requirements continue to be met whilst providing best value for money for the department. The organisation delivering these services is known as Team Leidos.

Team Leidos would like to make markets aware that we are intending to consider approaches that could fulfill our support and supply of Ice Making Machines requirement.

It is the aim of this Preliminary Market Engagement Notice (PMEN) to encourage

companies, suppliers, or manufacturers to make us aware and provide as much information as they are comfortable with, to help decide the future strategy for the range.

Team Leidos wishes to generate interest, information and views with other companies to understand the current market innovation and gain useful intelligence that can help our requirement.
