Procurement identifier (OCID): ocds-h6vhtk-051fae

Published 4 July 2025, 4:05pm

Changes to notice

This notice has been edited. The [previous version](#) is still available.

Tender publish date is 4 July 2025.

Scope

Reference

WS2524423908

Description

The scope of the Specification includes the design, prototyping and testing of the Modified Drawgear at all intermediate positions on the 1996 Tube Stock (96TS) vehicles.

The scope requirements for the design, prototyping and testing of a Modified Drawgear for the London Underground (LU) 1996 Tube Stock (96TS) are to address the known deficiencies of the existing system. This project is known as Jubilee Vehicle

Underframe Modification (JVUM) Project Lot 2.

The Designer is required to design, supply and test prototypes for the Modified Drawgear at the intermediate vehicle positions of the 96TS.

The Modified Drawgear shall feature a Collapse Element to replace the failing Jaw Release Mechanism,

As the Jaw Release Mechanism is complex and bespoke, collapse solutions of proven technology used in the railway industry are preferred.

The Modified Drawgear shall have a design life of not less than 25 years.

The Designer is required to deliver prototypes of the Modified Drawgear for testing.

Total value (estimated)

- £2,000,000 excluding VAT
- £2,400,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 28 March 2026 to 29 March 2028
- Possible extension to 29 March 2029

- 3 years, 2 days
