II.1.4) Short description

The University hospital of North Midlands is looking to award a supplier who is able to provide a minimally invasive glaucoma procedure device that targets all 3 points of resistance- Schlemm's canal, collector channels and the trabecular meshwork in one procedure.

Surgeons are looking for a system that is indicated for the catheterization and transluminal viscodilation of Schlemm's canal and the cutting of trabecular meshwork to reduce intraocular pressure in adult patients with open-angle glaucoma.

This is not an invitation to tender, nor does it preclude or favour eligibility to participate in the formal procurement once it starts. It is a process solely to test the current market capacity, to scope the services, and inform the procurement process.

Details in this PIN are subject to being updated or changed in the final tender notice.

This is a Prior Information Notice (PIN) for information only. It is not a formal invitation to tender. In the event of a publicly advertised tender being required, you will need to respond to the tender notice to be considered for this contract. The purpose of this PIN is to maximise transparency, act as a soft market test to understand numbers of potential bidders and increase competition for any potential upcoming tender notice, if it is to go ahead. All details in this PIN are subject to being updated or changed in the final tender notice, if required. If you are interested in any future procurement relating to this PIN, then please express your interest to this PIN via the Atamis portal.

II.3) Estimated date of publication of contract notice
