UPDATE - The requirement for a local office base has been removed from the pass/fail criteria for Lot 6, following discussion around national organisations having specific skills supporting a minority of people, such as a stroke or acquired brain injury, but supporting people on a local level. Despite this, there may be a requirement for a local office for some Contracts when awarded via a mini competition, but in these instances this will be outlined in the mini competition criteria and specification for the specific contract.

Additionally, the CQC registration and rating requirement has also been changed to duplicate that of lots 3 and 4, to enable organisations who do not provide personal care for example, and do not require a CQC registration to apply.

Further, the Contract is now expected to commence on 04th July 2025
