Provision of VMware-based platform and infrastructure support services, or equivalent solutions

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKI44 - Lewisham and Southwark

II.2.4) Description of the procurement

We have approximately 250 employees, comprising hybrid office/home based, or field-based-employees depending upon their role. We have one residential site and two smaller community sites which are linked to our Head Office by a hardware VPN. Staff working from home are able to access our cloud-based systems via their own internet connection, and

legacy systems – which are published as Citrix applications – via a software VPN link to Head Office.

Our Head Office has an IP VPN internet circuit, with an equivalently sized backup circuit. Our systems are a mix of Server based applications, and cloud services. Full details are provided in the appendices.

We have a small support and infrastructure team based at our Head Office providing a full range of hardware and software support to the business, supported by application vendors/resellers.

Phoenix's current infrastructure has been in place for several years. In 2021 we migrated our on-premise vmWare environment to VMware Cloud on Amazon Web Services. This is now due for renewal and this tender includes options around that renewal as well as other services. Full details are provided in the schedule and appendices.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

12

This contract is subject to renewal

Yes

Description of renewals

Please refer to Tender documentation for full details
