- The provider continue to meet the necessary key criteria used to evaluate the current service and the impact of the exit of service. Pioneer continue to provide the required assurances over quality, patient experience, system working and provider relationships, clinical governance, effective policies and value for money.
- This service exit arrangement applies to activity for patients who have already had their pathway of care transferred via IPT from MYTT to Pioneer. To appoint another provider at this stage would result in delays to treatment, may induce negative patient experience and would require additional financial spend and governance controls, which not represent best value for money for the ICB.
