Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The justification for the use of the negotiated procedure without prior publication is against two items:

a) The thresholds for the Public Contract Regulations 2015 under Regulation 5 set out the minimum thresholds for Works, Services or Supply. For Services, Regulation 5 sets out the following “This Part applies to procurements with a value [inclusive] of VAT estimated to be equal to or greater than the following thresholds...for public supply contracts and public service contracts awarded by central government authorities, and design contests organised by such authorities, [£139,688]...” Therefore, it has been judged that due to the quoted figure from the Supplier, this would fall under the PCR 2015 Threshold for Services and therefore the Procurement Regulations will not apply.

b) The existing Supplier (Chemical Abstracts Service) owns the system for the internal CAS Database and the Chemical Identifiers, and therefore any new supplier would need to subcontract CAS for use of their tool (and subsequent licenses and expertise). Therefore Regulation 32 (2)(b)(ii) applies as competition is absent for technical reasons.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
