## Scope

## Description

Since 2024 HBC's own roller which was originally purchased in 2015 has been off the road due to repairs required. Following discussion with workshop mechanics it was deemed not cost effective to repair given its age and the nature of the repairs required.

Since it has been in for repair our Highway's department have been using a hired in roller. Following discussions with the department who have provided positive feedback on the roller that we have which is 1 year old we have been made aware that it would be available to purchase for a cut price £13,500. Higher quotes have been received to supply a replica new machine.
