Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Market Engagement Exercise: Specialised Paediatric whole-body MRI (WBMRI)
Surveillance for Cancer Predisposing Syndrome

II.1.2) Main CPV code

- 85100000 - Health services

II.1.3) Type of contract

Services

II.1.4) Short description

NHS Arden and Greater East Midlands Commissioning Support Unit (AGCSU), on behalf of NHS England Specialised Commissioning (referred to as the Commissioner), is undertaking a market engagement exercise to understand the current and future capacity and capability of potential providers within this specialised area.

This notice is to advise prospective providers in the market of the commissioner's intention to commission this service and to provide an opportunity to engage with and participate in a market engagement questionnaire.

The outcome of this market engagement will help inform commissioners of the current and future capacity and capability of the market and will be considered to inform the commissioning approach.

Participation to this market engagement will close at 12pm (noon), Monday 4th August 2025.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

NHS England would like to identify providers who are interested in the provision of Specialised Paediatric whole-body MRI (WBMRI) Surveillance for Cancer Predisposing Syndromes.

The key objective of this market engagement process is to obtain relevant feedback and information from the market to understand the level of capability, capacity, competition and will help inform the commissioning strategy in relation to these Services.

Inherited cancer predisposition syndromes are genetic conditions that increase the risk of developing one or more types of cancer. This service will focus on three rare inherited cancer predisposition syndromes; Li-Fraumeni syndrome (LFS), constitutional mismatch repair deficiency syndrome (CMMRD) and rhabdoid tumour predisposition syndrome (RTPS). Published clinical guidelines for these conditions recommend the use of regular whole-body MRI (WBMRI) with the aim of detecting cancers at an early stage.

The overall aim of MRI surveillance for children with cancer predisposing syndromes is to provide WBMRI screening for patients with LFS, CMMRD and RTPS. The provision of expanded capacity for WBMRI scanning aims to improve clinical care of individuals once an inherited cancer predisposition has been diagnosed.

The anticipated contract duration for this service is 3 years, with the Commissioner having the option to extend the contract up to a further 2 years (maximum contract duration 5 years).

Documentation relating to this exercise including a questionnaire is available through the Atamis (Health Family) portal. To register your interest and access the questionnaire, please follow this link to the Atamis (HealthFamily) portal:

<https://atamis-1928.my.salesforce-sites.com/?searchtype=Projects>

The project reference is C371530 and the closing date for submission of the completed questionnaire is: 12pm (noon) Monday 4th August 2025.

II.3) Estimated date of publication of contract notice

30 September 2025

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
