II.1.3) Type of contract

Services

II.1.4) Short description

South East London Integrated Care Board (SEL ICB) Lewisham Borough are seeking to procure 14 Intermediate Care Beds based within the London Borough of Lewisham.

The main service outcome will be to deliver a 14 bed based Intermediate Care bedded rehabilitation and reablement unit in Lewisham, providing nursing and HCA support element to the service to people who are medically optimised at the point of discharge but still requiring nursing due to the acuity of their clinical presentation.

The provider will operate 24 hours a day, 7 days a week and 365 days of the year and ensure there is adequate staff to support patients in the beds.

The maximum length of stay in these rehab beds is six weeks, during which time the service aims to improve the patient's functionality and physical ability. Anticipated service outcomes include a measurable improvement in patient functionality and reducing the risk of an avoidable hospital admission.

To assist the Commissioners with testing its assumptions and proposed service requirements, a market engagement event will take place on Friday 13th December 2024 to explore the market's feedback on the following areas:

- outline of service requirements and KPI's
- timescales for procurement and mobilisation of the new contract
- proposed contract duration and financial model
