### Scope

### Description

Yarm Road Waste Transfer Station - Operator

As part of the changes to the waste and recycling service, the Council requires a Borough central WTS for the offloading of the recycling vehicles. Due to the configuration of the recycling vehicles and the new kerbside sort model, the WTS must be set up in a specific way to support the separation of the recyclable streams. The Council will be re-purposing and building upon the current Yarm Road Depot site and will be going out for tender for the operator of this site.
