Planning

Blaby District Council - Huncote Leisure Centre Minor Works

Blaby District Council

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-039213

Procurement identifier (OCID): ocds-h6vhtk-055d85 ([view related notices](#))

Published 11 July 2025, 11:49am

Scope

Description

Blaby District Council wishes to appoint a single provider for the provision of minor works to former small BMX track and installation of gas monitoring wells and break up of tarmac areas at current BMX track.

The purpose of this notice is to notify the market of quotations that were sought from local suppliers to support with this project, to inform the Council of the options available.

Following the emergency situation at the leisure centre in November 2021, significant investment has been made into the site, deploying various passive and active venting infrastructure to manage the levels and migration of landfill gases at a cost of over £400k. The works proposed as part of this will increase the coverage of the landfill gas mitigation system and will help to prevent migration of landfill gases from this area of the site. Additionally, the works are required to ensure safety of the site (i.e. reduced surface migration of gases) with regards to a potential future public reopening. The works to the BMX track will reduce the Council's liability at the site.

Total value (estimated)

- £31,877.68 excluding VAT
- £38,253.22 including VAT

Below the relevant threshold

Contract dates (estimated)

- 1 August 2025 to 31 March 2026
- 8 months

Main procurement category

Works

CPV classifications

- 45236290 - Repair work on recreational areas
- 50413100 - Repair and maintenance services of gas-detection equipment

Contract locations

- UKF22 - Leicestershire CC and Rutland

Engagement

Engagement deadline

1 June 2025

The engagement was carried out before this notice was published.

Engagement process description

The Council has already approached 2 local providers and believes that there are a limited number of suppliers that possess the site specific knowledge required to be able

to undertake this work. Greenfield Technical Services is the incumbent provider that installed the manifolds and existing landfill gas pipework and therefore have the site specific knowledge required to do any repairs. An alternative

supplier was consulted to understand the extent of the works required on the BMX tracks only and to gain a second opinion, ensuring that the works specified were fit for purpose and the right course of action to be taken. The second supplier is not able to undertake the installation of gas wells.

However, the Council wanted to ensure there is no other supplier in the market other than the incumbent that can offer the same extensive knowledge of the site and ability to conduct the repairs.

The purpose of this notice is to inform the market of the engagement that has taken place so far with suppliers as it considers the next steps available.

Participation

Particular suitability

- Small and medium-sized enterprises (SME)
 - Voluntary, community and social enterprises (VCSE)
-
