## Section II: Object

### II.1) Scope of the procurement

#### II.1.1) Title

Goods-Framework-Supply of LV Electric Motors

Reference number

PRO004555

#### II.1.2) Main CPV code

- 31110000 - Electric motors

#### II.1.3) Type of contract

Supplies

#### II.1.4) Short description

The requirement is for the supply of low voltage electric motors, predominantly on a replacement basis for motors linked to existing UU assets. UU has identified a requirement to improve the efficiency of the motors it purchases and therefore a drive to purchase motors certified to IE4 class efficiency where it is feasible to do so, and IE3 class efficiency where IE4 is not feasible. UU purchase a wide range of assets including, but not limited to, Pumps, Screens, Conveyors, Scrapers, Filtration Systems and Centrifuges. All of these assets are supplied with a motor, often unique to the performance of the asset, as a component of the equipment. If the motor fails at any point during the lifetime and cannot be repaired or it is deemed commercially unviable to repair, there is a need for UU to replace the motor in a timely manner to ensure production and site operations continue.
