Reference

STA HP 1506

Description

eSafe provide software that enables the remote monitoring of electronic devices used by registered sex offenders and violent offenders.

The software is used to monitor and assess risk levels, inform risk management plans and gather evidence on managed offenders who commit additional criminal offences.

The software is provided on licence basis and one individual licence allows the monitoring of one offender's device.

This software is used by the majority of UK police Forces to manage their most high-risk offenders
