Description

Creative Sponge was the designer of our existing site and we have been in discussion with them about rebuilding the site for increased stability and security. We have had discussions with colleagues in NCC Digital Services and they have given us exemption (to use a third party provider instead of in-house build) and know we plan to continue working with Creative Sponge. Using a new third party provide will add significant time and resource over using the current provider to rebuild what they designed and built specifically for us a number of years ago.
