## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Bus Reform Technology Partner

#### **II.1.2) Main CPV code**

- 71311200 - Transport systems consultancy services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

In order to deliver Bus Reform, WYCA needs to undertake a variety of technology changes across many business areas to enable the transition from the current enhanced partnership into the proposed franchising scheme. These changes, collectively form several complex technology projects which carry many risks. Unless managed correctly, these have the potential to threaten overall Bus Reform delivery within the required timescales.

The Combined Authority has mobilised a dedicated transition team to oversee and manage the transition from the current deregulated environment to the franchised network. The core team supports the delivery of identified work, which is spread across five different workstreams. These workstreams draw on resource from across the organisation in various capacities to manage and control the delivery of work.

The five workstreams are:

- Assets
- Data
- Network Planning and Management
- Customer
- Contracting
