Published 15 July 2025, 1:52pm

Scope

Reference

CWC25114MW

Description

Wolverhampton City Council are conducting a Preliminary Market Test for a Waste Management System.

Following the Simpler Recycling announcement in October 2023, the council is undertaking a review of its long-term waste disposal needs, as well as developing a new food waste service for implementation in line with statutory requirements from 1 April 2026.

The Council would like to explore the options for a multi-functional management system that integrates Waste Services, Street Cleansing, and Grounds Maintenance. The goal would be to improve operational efficiency, enable better coordination of resources, and provide greater visibility across teams.

By consolidating these services into a unified platform, we aim to:

- Streamline scheduling and deployment of crews and vehicles.
- Enhance data sharing and reporting across service areas.
- Simplify issue tracking and resolution for both staff and the public.
- Support mobile working and real-time updates from the field.
- Improve accountability and performance monitoring for in-house teams and contractors.

This integrated approach will reduce duplication, increase responsiveness, and support our wider goals for delivering high-quality, sustainable public services.

To progress and develop how waste services are recorded and delivered the Council is looking to understand what opportunities and constraints currently exist in the waste management markets, supporting industries and supply chains to aid its decision making.

Interested suppliers are invited to participate by completing a short questionnaire. This will be used for information-gathering purposes and will help the Council understand the current market offerings and innovations. The Council may decide to progress with demonstrations or discussions with suppliers following the closing date.

If you would like to participate, please complete the Preliminary Market Engagement Questionnaire using the following link, <https://procontract.due-north.com/Advert?advertId=347e2cc5-5961-f011-813a-005056b64545&p=cdcfff6b-8cbd-e611-8118-000c29c9ba21>

The closing date for submission is 12 midday 6th August 2025.

Contract dates (estimated)

- 1 November 2025 to 31 October 2030
- 5 years

Main procurement category

Goods

CPV classifications

- 48000000 - Software package and information systems
