On 2.4.2014 Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at:

<https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.

Some purchases under this framework Agreement may have requirements that can be met under this Framework Agreement but the purchase of which may be exempt from the Procurement Regulations (as defined in Attachment 1 – About the framework within the invitation to tender documentation). In such cases, Call-offs from this Framework will be unregulated purchases for the purposes of the Procurement Regulations, and the buyers may, at their discretion, modify the terms of the Framework and any Call-off Contracts to reflect that buyer's specific needs.

CCS reserve the right to award a framework to any bidder whose final score is within 1% of the last position.

For Lot 1 51 suppliers were awarded a place as opposed to the number of 50 as was originally stated in the Contract Notice that was published on 27/10/20.

For Lot 2 51 suppliers were awarded a place as opposed to the number of 50 as was originally stated in the Contract Notice that was published on 27/10/20.

The contractor/concessionaire is an SME

No

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

In accordance with Regulation 72 paragraph 1 (e) of the Public Contract Regulations 2015,

CCS intends to modify the Digital Specialist and Programmes (DSP) Framework

Agreement (RM6263) by extending the term by 12 months.

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

Due to the recent decision made by Government to delay the implementation of the

Procurement Act 23, Crown Commercial Service (CCS) believes that the first condition set out

in Regulation 72(1)(c) Public Contracts Regulations 2015 has been fulfilled in respect of the

Framework Agreement. In order to enable CCS to ensure its portfolio is ready for the new implementation date of 24/02/2025, and to safeguard the significant work already completed in the development of the replacement agreement under the new regulations, CCS

proposes to extend the Framework Agreement for a period of nine (12) months from its scheduled expiry date. The extended Framework Agreement will expire on 07/03/2026.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptions and average inflation)

Value excluding VAT: £4,000,000,000

Total contract value after the modifications

Value excluding VAT: £4,000,000,000
