II.1.4) Short description

West Yorkshire Combined Authority is seeking to establish Homes Energy West Yorkshire as a trusted retrofit service, and is seeking a provider to implement, lead and deliver a 'one-stop shop' (OSS) which will enable all West Yorkshire residents (of all tenure types) and landlords to access impartial advice and information on domestic retrofit and energy efficiency. The OSS aims to provide a comprehensive, accessible service to support households through the retrofit process, addressing barriers to uptake and promoting sustainable energy use. The purpose of this commission is to appoint a provider to manage and deliver the OSS and its services, acting as a 'managing agent'. The managing agent will provide both advice and installation services. Consortium bids are permitted, with a consortium lead clearly identified. The contract is to be for an initial 5 year term with the option to extend up to a maximum period of 15 years.

II.2.4) Description of the procurement

West Yorkshire Combined Authority is seeking to establish Homes Energy West Yorkshire as a trusted retrofit service, and is seeking a provider to implement, lead and deliver a 'one-stop shop' which will enable all West Yorkshire residents (of all tenure types) and landlords to access impartial advice and information on domestic retrofit and energy efficiency. The one stop shop is an initiative designed to address the gap in support for households in West Yorkshire's private housing sector, focusing on retrofitting and installing renewable energy solutions. With 82% of the region's 1.02 million households either owned or privately rented, there is a significant need for assistance in improving energy efficiency and reducing carbon emissions. The scheme responds to and delivers on the Mayor of West Yorkshire's manifesto, to establish a one stop shop (OSS) in West Yorkshire. The OSS aims to provide a comprehensive, accessible service to support households through the retrofit process, addressing barriers to uptake and promoting sustainable energy use. By offering direct support and raising awareness of existing schemes, the OSS will enable these households to contribute to the region's overall sustainability goals and help achieve West Yorkshire's ambitious Net Zero target by 2038. The purpose of this commission is to appoint a provider to manage and deliver the OSS and its services, which will support West Yorkshire residents and private landlords to improve the energy efficiency of their home through installation of retrofit measures acting as a 'managing agent'. The managing agent will provide both advice and installation services. Consortium bids are permitted, with a consortium lead clearly identified. The contract is to be for an initial 5 year term with the option to extend up to a maximum

period of 15 years.
