II.2.4) Description of the procurement

The works comprise the support of the existing Clients design team to allow them to develop their RIBA Stage 2 design to tender stage and then full construction drawings and the subsequent construction of said design to provide 152 new build residential dwellings at Caledonia Road, Hutchesontown, Glasgow. The design has been progressed by the Employer's appointed design team, and the successful contractor will be required to work collaboratively with the existing design consultants to refine and complete the design for construction, ensuring buildability, value for money, and compliance with all statutory and technical requirements. The development is split across two sub-developments:

- 98 units designed by Elder and Cannon Architects

- 54 units designed by Page\Park Architects

The development includes a mix of general needs flats, maisonettes, wheelchair-accessible units, and townhouses. The proposed structural frame is to be a steel frame construction system, with external walls finished in a high-quality facing brick, complemented by single ply membrane roofing or concrete roof tiles and associated detailing. The heating strategy proposed is communal ASHPs.

Works also include piled foundations, extensive external works (roads, footpaths, hard and soft landscaping), drainage infrastructure with attenuation, retaining structures, boundary treatments, communal bin and bike stores, and all incoming utilities and service connections
