Description

Lancashire County Council has been successful in securing funding for two schemes from the Department for Transport Safer Roads Fund and the Levelling Up Fund Programme. The Safer Roads Fund schemes will reduce the risk of fatal and serious collisions which will increase the International Road Assessment Programme Star Rating for each of the identified routes. The Levelling Up Fund scheme will address actual and perceived road safety risks by targeting excessive speeds and anti-social driving behaviour along the A682 Colne Road. This complements the wider strategic objective of the Levelling Up Fund to improve the sense of community in north-east Burnley and make better connections across Colne Road.

Lancashire County Council will work with Lancashire Constabulary in developing and introducing a speed enforcement system on:

A682 Colne Road, Burnley & Brierfield

The scope of the works includes design, installation and maintenance of a speed enforcement system.

It is a requirement of the tender that the speed enforcement camera system proposed has current Home Office Type Approval for stationary and spot speed enforcement.

Total value (estimated)

- £786,637 excluding VAT
- £943,965 including VAT

Above the relevant threshold
