The contractor will be notified of the intention to renew at least 3 months prior to the expiry of the initial contract term.

II.2.10) Information about variants

Variants will be accepted: Yes

II.2.11) Information about options

Options: Yes

Description of options

The Council welcomes bids that propose innovative approaches to delivering car park operation and management services. Variants may include alternative technologies, pricing structures, or risk-sharing models that differ from the specifications provided in the tender documents.

The contract term may be extended at the discretion of the Council, subject to satisfactory performance and agreement by both parties.

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

Tenderers must demonstrate that they are duly authorised to carry out parking operation and enforcement services. This includes:

Valid registration or licence to operate as a parking management service provider, where applicable.

Compliance with all relevant legislation governing parking enforcement and data protection.

Evidence of professional indemnity and public liability insurance appropriate to the scope of the contract.

If applicable, membership or registration with relevant trade or professional bodies (e.g., British Parking Association or equivalent).

Demonstration of relevant experience and capability to deliver the contract requirements.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Restricted procedure

Accelerated procedure

Justification:

The contracting authority is using the accelerated restricted procedure due to the imminent expiry of the current contract and the essential nature of car park management services. An early engagement notice was published previously to ensure market awareness and interest, enabling a shortened timetable while maintaining a competitive and transparent process. This approach helps secure continuity of service without disruption to the public.
