I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Recreation, culture and religion

Section II: Object**II.1) Scope of the procurement****II.1.1) Title**

British Museum Micro CT

Reference number

BM.24.042

II.1.2) Main CPV code

- 38582000 - X-ray inspection equipment

II.1.3) Type of contract

Supplies

II.1.4) Short description

The Museum is the recipient of a grant from the Research Infrastructure for Conservation and Heritage Science (RICHeS) programme awarded by the Arts and Humanities Research Council (AHRC) and UK Research and Innovation (UKRI). The grant will enable the creation of an X-ray Imaging Centre at the Museum accessible to researchers from the UK and across the globe. The Centre will build on the X-ray imaging facilities already available at the Museum by funding the purchase of a micro-computed tomography (micro-CT) instrument, which is the subject of this procurement. The micro-CT scanner will offer significantly higher resolution than the existing setup, whilst being versatile in the size, shape and materials it will be able to scan. This will allow it to cover the wide range of material in the Museum collection and those from collaborators under the RICHeS programme.

The Museum wishes to procure the instrument, and all necessary supporting equipment and software, as set out in greater detail below in the specification. The procurement will also include delivery and installation of the instrument in the Museum's X-ray laboratory suite in its World Conservation and Exhibition Centre (WCEC) at its main site in Bloomsbury, London. The supplier will conduct all necessary post installation tests of functionality and provide training to the RICHeS staff on use of the instrument. Post warranty maintenance services will also be provided as part of the contract.

The grant provides a budget of £710,000 (excluding VAT) for the purchase of the instrument, supporting computing hardware and software, delivery, installation, training and for a maintenance and service contract to last 5 years post installation.

II.1.5) Estimated total value

Value excluding VAT: £710,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 33115100 - CT scanners

II.2.3) Place of performance

NUTS codes

- UKI - London

Main site or place of performance

LONDON

II.2.4) Description of the procurement

The Museum is the recipient of a grant from the Research Infrastructure for Conservation and Heritage Science (RICHeS) programme awarded by the Arts and Humanities Research Council (AHRC) and UK Research and Innovation (UKRI). The grant will enable the creation of an X-ray Imaging Centre at the Museum accessible to researchers from the UK and across the globe. The Centre will build on the X-ray imaging facilities already available at the Museum by funding the purchase of a micro-computed tomography (micro-CT) instrument, which is the subject of this procurement. The micro-CT scanner will offer significantly higher resolution than the existing setup, whilst being versatile in the size, shape and materials it will be able to scan. This will allow it to cover the wide range of material in the Museum collection and those from collaborators under the RICHeS programme.

The Museum wishes to procure the instrument, and all necessary supporting equipment and software, as set out in greater detail below in the specification. The procurement will also include delivery and installation of the instrument in the Museum's X-ray laboratory suite in its World Conservation and Exhibition Centre (WCEC) at its main site in Bloomsbury, London. The supplier will conduct all necessary post installation tests of functionality and provide training to the RICHeS staff on use of the instrument. Post warranty maintenance services will also be provided as part of the contract.

The grant provides a budget of £710,000 (excluding VAT) for the purchase of the instrument, supporting computing hardware and software, delivery, installation, training and for a maintenance and service contract to last 5 years post installation.

Further details relating to the specification of the instrument are available in the procurement documents.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

60

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No
