Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Any supplier wishing to provide this service would have to operate a waste transfer station at the Lot locations therefore any supplier wishing to provide this service would have to build the facility in this area.

A project to provide THC waste transfer facilities in Lochaber is on-going and the site should be available around July/August 2025.

In this instance there are no alternative facilities available in the area, either in the public or private sector, and it is not possible for them to be developed by the expiry of this contract 30/09/2025.

Taking into account the short duration of the proposed contract it is not considered that suppliers would incur expense in planning applications and the construction of a facility as they would be unable to make a return on investment during the short length of this contract.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
