Section II: Object

II.1) Scope of the procurement

II.1.1) Title

UKRI-4491 ESRC-BBSRC Food Systems Commercialisation Catalyst

II.1.2) Main CPV code

- 79410000 - Business and management consultancy services

II.1.3) Type of contract

Services

II.1.4) Short description

UKRI requires a supplier to support the development and delivery of an early-stage mission-led commercialisation catalyst (The Programme).

The key aims for the Programme are to:

- i.Enable collaboration between bioscience and social science researchers: recruiting researchers, building and supporting multidisciplinary/interdisciplinary teams to address an agreed team challenge.
- ii.Support skills and capacity development: training, supporting and enabling the cohort of grant holders to grow and sustain positive social and/or environmental impact from their research in the mission area of healthy, sustainable and resilient food systems. This may include formal training, mentoring and peer support, networking, and facilitating connections with relevant expertise and national/international markets.
- iii.Support grant holders to explore alternative (non-traditional commercial) enterprise models to create effective and self-sustaining impact. Grant administration will be managed by UKRI.

This requirement will be for initial period of 12 months with an optional extension of up to a further 6 months. The value of the requirement will be up to £500,000.00 for the initial period and £300,000.00 for the extension which will be subject to approval.

II.1.5) Estimated total value

Value excluding VAT: £500,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

II.2.4) Description of the procurement

UKRI requires a supplier to support the development and delivery of an early-stage mission-led commercialisation catalyst (The Programme).

The key aims for the Programme are to:

- i. Enable collaboration between bioscience and social science researchers: recruiting researchers, building and supporting multidisciplinary/interdisciplinary teams to address an agreed team challenge.
- ii. Support skills and capacity development: training, supporting and enabling the cohort of grant holders to grow and sustain positive social and/or environmental impact from their research in the mission area of healthy, sustainable and resilient food systems. This may include formal training, mentoring and peer support, networking, and facilitating connections with relevant expertise and national/international markets.
- iii. Support grant holders to explore alternative (non-traditional commercial) enterprise models to create effective and self-sustaining impact. Grant administration will be managed by UKRI.

This Programme is in response to both ESRC and BBSRC's (two of UKRI's component research councils) strategic aims to support commercialisation for social, economic, and environmental good. ESRC and BBSRC are investing:

- Up to £1m in maximum 10 grants within a single competition in 2025. The grant award facilitates researchers to develop their idea with a view to its eventual launch (10 awards at £100k each = £1m). The supplier will manage the grant competition; UKRI will administer the grants.
- Up to £500k (exc. VAT) for this 'mission-led commercialisation catalyst support package' as described in this scope of work. The overall project costs cannot exceed this amount.

To support delivery of this Programme, the supplier will be expected to recruit researchers, build and support multi/inter-disciplinary teams, where each award-holding team must have a mix of social science and bioscience expertise. The supplier will also be expected to train, support and enable these researchers to grow and sustain positive social / environmental impact from their research in the mission area of healthy, sustainable and resilient food systems. As such, the supplier must have expertise in social science commercialisation, commercialisation of bioscience innovations, as well as commercialisation of multidisciplinary and interdisciplinary research.

Duration of Initial period will be 12 months commencing in March 2025. there will be an optional extension period of up to a further 6 months subject to approval.

II.2.5) Award criteria

Quality criterion - Name: Quaity / Weighting: 90

Cost criterion - Name: Price / Weighting: 10

II.2.6) Estimated value

Value excluding VAT: £500,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

12

This contract is subject to renewal

Yes

Description of renewals

There is an optional extension of up to 6 months subject to approval.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

6 February 2025

Local time

11:00am

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.6) Minimum time frame during which the tenderer must maintain the tender

Duration in months: 3 (from the date stated for receipt of tender)

IV.2.7) Conditions for opening of tenders

Date

6 February 2025

Local time

11:00am

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.3) Additional information

The contracting authority considers that this contract may be suitable for economic operators that are small or medium enterprises (SMEs). However, any selection of tenderers will be based solely on the criteria set out for the procurement.
