Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

In accordance with Regulation 4 of the Defence and Security Contracts (Amendment) (EU Exit) 2019 Regulations (SI 2019/697) this procurement is regulated under the provisions of the Defence and Security Public Contracts Regulations 2011 as amended (by SI 2019/697 and SI 2020/1450). Prior publication of a contract notice in the official Journal of the European Union is no longer appropriate. It is considered that the award of contract

without prior publication of a contract notice in the UK e-notification service (as required by the relevant legislation) is lawful in accordance with regulation 16(1)(a)(ii) of the Defence and Security Public Contracts Regulations 2011 for technical reasons.

The Ministry of Defence owns the existing legacy EUC, KMY, KMW, SEZ, IMT, and 1CLF equipment's (the Equipment) which are fitted to Surface and Submarine Vessels in the British Royal Navy. The Equipment provides external communication and messaging capabilities fitted within these platforms.

KMY, IMT and 1CLF are obsolescent products developed by, produced, maintained and supported by the Company but in order to sustain the operational capability they must be maintained until replacements are procured. The Company is the Design Authority and Original Equipment Manufacturer and is the only economic operator with the necessary technical know-how, tooling, and software/test equipment to carry out the contract.

Proprietary information owned by the Company includes technical drawings and data sets which are necessary to support the Equipment to the required standard. Furthermore, the Company is the only organisation that owns the legacy test jigs and tooling required to perform diagnosis, production of spares, repairs and cannibalisation of the Equipment. The Ministry of Defence does not hold/have access to this information to enable fulfilment of this requirement by a third party. EUC and KMW equipment has additional security requirements which only the Company can meet in order to provide support to the British Royal Navy.
