Description of risks to contract performance

Identified contract risks will be managed throughout the term of the Contract.

The age of the existing buildings and associated plant/equipment is an identified contract risk. Swallows Leisure centre was built in 1989, Sheerness Pool 1980, and Faversham outdoor pool 1964, with the indoor pool facility added in 1993. Building condition surveys for each site are available for Bidders to view, identifying priority works.

Where relevant, identified risks will be subject to negotiation e.g. level of capital investment, delay in opening of new Sheppey Healthy Living Centre, new pool is not developed at Sheppey, planning permission cannot be achieved at Faversham etc. The cost of these risks will be discussed by the Authority and the Bidder and made clear through submitted tenders.

The risks will be reflected in the Contract to enable permitted modifications under the Act.
