II.1.1) Title

GSCIP Datasets - Generalist Company and Supply Level Data & Risk Data

II.1.2) Main CPV code

- 72300000 - Data services

II.1.3) Type of contract

Services

II.1.4) Short description

The Department for Business and Trade ("DBT") has a potential requirement for the provision of generalist company and supply level datasets & risk datasets.

The Secretary of State for DBT is the contracting authority responsible for meeting this anticipated requirement. DBT intends to publish the Contract Notice 06/01/2025.

The full specifications shall be provided with the contract documents but they are expected to incorporate:

Lot 1: Generalist Company and Supply Level Data

The requirement for datasets that fulfil the mandatory criteria for one or more of the following:

- 1 - Trading relationships between businesses ('A' supplies 'B')
- 2 - Products produced by a business, or at a business facility ('A' sells 'steel' OR 'steel' is made at 'X')
- 3 - Locations of business activity ('A' has a factory at 'X')
- 4 - Transactions between facilities owned by businesses (Factory at 'X' owned by 'A' sends goods to Factory 'Y' owned by 'B' on 'Z' date)

Lot 2: Company-level Risk Information

Lot 3: Country-level Risk Information

It is anticipated the contract shall be for a period of up to 36 months, including any available contract option(s). The requirement has an estimated total value of £6,958,629 (excluding VAT) and this value includes any available contract option(s).

Please email commercialbpo@businessandtrade.gov.uk to express your interest in the bid and indicate which lot(s) you would be bidding for.

DBT leads a cross-government programme that combines both government (HMG), private sector and open-source datasets to build detailed global supply chain maps at commodity and company level using a third- party ring-fenced graph style database stored on DBT's own environment.

DBT intends to develop a multi-lot tender with each lot covering a dataset type. Additional dataset types are likely to be procured early in the new year.

The proposed structure will be:

- Lot 1: Generalist Company and Supply Level Data
- Lot 2: Risk Data

DBT will be seeking multiple providers across all the lots, including the potential for a single supplier to provide data for more than one lot. DBT's intention is for the estimated budget of £7,000,000 over 36 months to be allocated across the lots and the contracts, for clarity this figure shall not be available to a single provider and DBT is looking for a diversity of supply chain data from multiple suppliers. It is proposed that the contracts will begin in April 2025 and will be for a duration of up to 3 years.
