Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Patient Engagement Portal (PEP)

II.1.2) Main CPV code

- 48000000 - Software package and information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

Hampshire and Isle of Wight Healthcare NHS Foundation Trust provides community mental, physical, and learning disability health services, as well as community hospitals and specialist inpatient units, for a population of 1.5 million people, with a staff base of 12,500.

The Trust is looking for a Patient Engagement Portal (PEP) solution. The Trust has mature digital capabilities when working in partnership with suppliers and is working towards the completion of the NHS England Digital maturity standards of which a PEP is a key deliverable.

The PEP solution must currently be being used within an existing NHS Trust (preferably a Mental Health / Community Trust). The ability to interoperate with multiple electronic patient record solutions is a key requirement for the PEP.

The solution needs to meet the detailed below requirements.

We are looking to hold preliminary market engagement sessions (virtually) across three days (23rd, 24th and 28th January) to understand solutions available within the market. If you have a solution that meets these requirements, please contact Helen Grieves, Procurement Category Manager on Helen.Grieves@southernhealth.nhs.uk and you will be provided a slot.

Please ensure you provide the following information;

- Full Company name and address.
- Main and Secondary Contact name, title, email and office base addresses.
- Details of which NHS organisations are using your solution, including the type of NHS

trust they are.

- Statement confirming that your solution is able to meet the above requirements.

II.1.5) Estimated total value

Value excluding VAT: £800,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 48100000 - Industry specific software package

II.2.3) Place of performance

NUTS codes

- UKJ3 - Hampshire and Isle of Wight

II.2.4) Description of the procurement

Hampshire and Isle of Wight Healthcare NHS Foundation Trust provides community mental, physical, and learning disability health services, as well as community hospitals and specialist inpatient units, for a population of 1.5 million people, with a staff base of 12,500.

The Trust is looking for a Patient Engagement Portal (PEP) solution. The Trust has mature digital capabilities when working in partnership with suppliers and is working towards the completion of the NHS England Digital maturity standards of which a PEP is a key deliverable.

The PEP solution must currently be being used within an existing NHS Trust (preferably a Mental Health / Community Trust). The ability to interoperate with multiple electronic patient record solutions is a key requirement for the PEP.

The solution needs to meet the following requirements:

- Appointments - see all future appointments including location and date, with the ability to link into a portal to view more detail. Ability for Patient to book, reschedule and cancel appointments via direct integration with the EPRs. It is crucial to adhere to the System Requirement Specification (SRS) provided by NHS England.
- Care Plans and Assessments - for patients to be able to access their care plans and assessments via the Portal.

- Clinical Questionnaires and Online Forms - The ability to create custom questionnaires and forms for the purpose of collecting clinical information linked to the Patient Record.
- Clinical Record Access - Ability to access defined parts of the Clinical records e.g. Immunisations, Screening records.
- Letters - Ability for Patients and Carers to view Patient letters
- Messages/2 Way Communications - Two way initiated individual messaging between a patient and clinical teams with a record of the conversation recorded in the EPRs.
- Notifications - The ability to send pre-defined notifications individually to patients or to defined cohorts of patients. Ability for portal administrators to automate task and alerts/notifications
- Patient Profile - section of the Portal that allows Patients to manage their Portal account and change preferences e.g. Communication preferences, language, accessibility requirements.
- Patient Resource and Education - The ability to provide links to advice and support both local and national. The ability to upload individual content for patients to use e.g. workbook for them to complete between appointments.
- Proxy Access - The Portal must allow for Proxy access to be given so that records can be accessed on behalf of the Patient e.g. Carers. It must be possible for patients to select which areas of the Portal to share with others e.g. carer or voluntary sector.
- Reports and Dashboards - Ability to extract data and/or create in-built reports
- NHS App - Ability to sign in to the Portal via the NHS App but there should also be the ability to sign in directly to Portal. Integration with NHS App to surface information from the Portal which currently includes Appointments, Letters, Forms and Results. To continue to meet the requirements of the Wayfinder programme to service data via the NHS App.
- Patient Data - All patient data MUST be held in the EPR to maintain a full clinical record.

We are looking to hold preliminary market engagement sessions (virtually) across three days (23rd, 24th and 28th January) to understand solutions available within the market. If you have a solution that meets these requirements, please contact Helen Grieves, Procurement Category Manager on Helen.Grieves@southernhealth.nhs.uk and you will be provided a slot.

Please ensure you provide the following information;

- Full Company name and address.
- Main and Secondary Contact name, title, email and office base addresses.
- Details of which NHS organisations are using your solution, including the type of NHS trust they are.
- Statement confirming that your solution is able to meet the above requirements.

II.3) Estimated date of publication of contract notice

31 December 2024

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No
