Scope

Description

The Council has established a framework agreement for the supply of electricity and gas, including both half-hourly (HH) and non-half-hourly (NHH) sites, and street lighting. This framework enables the Council to procure energy from renewable sources and consider low-carbon alternatives, resulting in significant cost avoidance given the recent increases in energy prices. The Authority's Regeneration Partner Equans appointed Engie Impact, under an internal company arrangement to deliver the Strategic Clean Energy Sourcing requirement for the Authority's gas and electricity framework.
