II.1.4) Short description

Crown Commercial Service (CCS) as the Authority intends to put in place a pan Government framework agreement for the provision of standard and specialist vehicles to be utilised by Central Government Departments and all other UK Public Sector Bodies, including Local Authorities, Health, Police, Fire and Rescue, Education, Devolved Administrations, British Crown Dependencies and British Overseas Territories, nationalised industry, voluntary bodies, charities and private sector organisations procuring on behalf of these bodies.

The framework agreement will replace the previous Vehicle Purchase framework agreement (RM6060) and Vehicle Conversions dynamic purchasing system (RM3814). The scope of the Framework Contract covers the supply and delivery of vehicles to the United Kingdom of Great Britain and Northern Ireland (UK) and overseas.

The aim of the framework agreement is to appoint suppliers who will be responsible for either the complete supply chain from product development, vehicle manufacture, conversion and supply to customers through to after-sales support, maintenance and support, warranties and parts or vehicle conversion as a stand-alone service.

CCS have amended the Estimated total value excluding VAT, and the estimated value excluding VAT in each of the Lots.

These changes will be effective from 04/08/2025.

On 02/04/2014, Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at:

<https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement. CCS reserved the right to award a framework to any bidder whose final score was within 1% of the last position. For Lot 7, 13 suppliers were awarded a place as opposed to the number of 12 as was

originally stated in the Contract Notice and For Lot 10, 23 suppliers were awarded a place as opposed to the number of 20 as was originally stated in the Contract Notice that was published on 25/03/2022.
